

```
package p1;

public class product {
    private int sNumber;
    private static int counter=0;

    public static int getcounter() {
        return counter;
    }

    public product() {
        counter ++;
        sNumber=counter;
    }
}
```

```
package p1;

public class program {

    public static void main(String[] args) {
        // TODO Auto-generated method stub

        System.out.println(product.getcounter());
        product p = new product();
        System.out.println(product.getcounter());
    }
}
```
