```
package p1;
public class product {
    private int sNumber;
    private static int counter=0;
    public static int getcounter() {
        return counter;
    }
    public product() {
counter ++;
sNumber=counter;
    }
}
package p1;
public class program {
    public static void main(String[] args) {
        // TODO Auto-generated method stub
        System.out.println(product.getcounter());
        product p = new product();
        System.out.println(p.getcounter());
    }
}
```
