```java
package p4;

public class employee {
    private final long ID;
    public employee(){
    ID = createID();
    }
    private long createID(){
        return ID;

    }
    public final long getID() {
        return ID;
    }

}

/////////////////////////////////////////////////////////////////////////////////////////

package p4;

public class program {

    public static void main(String[] args) {
        // TODO Auto-generated method stub

        employee a = new employee();
        System.out.println(a.getID());

    }

}
```
